

Reserve Active Duty Orders

Introduction

This guide provides the procedures to issue all Reserve Active Duty Orders. Terms used throughout this guide will include Active Duty for Training (**ADT**), which includes IADT, ADT-AT and ADT-OTD orders, and Active Duty for Other Than Training (**ADOT**), which includes ADOS-AC, ADOS-RC, Medical Hold (MEDHOLD), Active Duty Health Care (ADHC) and involuntary recall orders in Direct Access.

Extended Active Duty and Medical hold Orders are authorized by PSC and entered in Direct Access by the SPO using the Reserve Orders link.

Key Points

Introduction

The following Key Points for issuing, approving or endorsing Reserve Active Duty Orders are outlined below.

Reserve Active Duty Orders Definitions and Type

This diagram shows the different categories of Reserve Active Duty. Please see reference (a), for a complete explanation of each duty type.

Obligated Service

This transaction authorizes a new Active Duty period. In cases where a Reserve enlisted member does not have sufficient Reserve obligated service to cover the new period of Active Duty authorized, the member must either voluntarily extend, reenlist, or be involuntarily retained as appropriate, to ensure sufficient obligated service. In cases where a Reserve officer does not have sufficient Reserve obligated service to cover the new period of Active Duty authorized, contact CGPSC (rpm). It will be necessary for CGPSC (rpm) to submit an Officer Personnel Change Form in Direct Access to update the officer's Reserve obligation.

Key Points, Continued

Lump Sum Leave

When a Reserve member's period of Active Duty of 30 or more consecutive days ends, they may sell leave earned while on Active Duty.

Leave earned on Active Duty served in support of a national defense contingency operation is not subject to the 60-day career limitation for selling accrued leave.

Leave earned on consecutive Active Duty periods (other than in support of a national defense contingency operation), the total of which is not in excess of 365 days combined, is not subject to the 60-day career limitation for selling accrued leave.

Reservists being released from Active Duty, without immediate reentry onto Active Duty within 24 hours, are allowed to carry a leave balance forward for use or payment at a later time. See Reference (g).

Basic Allowance for Housing (BAH) Policy

Refer to Section 3.G.11 of reference (b), for policy on BAH entitlements for Reserve Component members on Active Duty Orders.

BAH and Extensions to Orders

Reserve members called or ordered to Active Duty for 30 days or less are entitled to Basic Allowance for Housing – Reserve Component (**BAH-RC**), except as provided in section 3.G.11.a, b, or c, of reference (b).

If the member receives an order modification or extension of assignment (amendment), and the amount of Active Duty remaining to be served as of the date the member is notified of the modification to the order is 31 days or more, the member becomes entitled to BAH. BAH would start on the date of the notification of the modification using the Place Entered Active Duty (PLEAD) as the locality for the amount.

Do not add periods of Active Duty previously served to obtain the 31 day requirement. Only the number of days Active Duty remaining on the date of the amendment can be counted.

Continued on next page

Key Points, Continued

BAH and Extensions - Example 1:

In this example, a Reserve member is ordered to 30 days ADOS, and on day 16 has duty period increased by 15 days in addition to the initial 30 days for a total period of 45 days. The member would remain entitled to BAH-RC since as of the date of the amendment (day 16 of the initial period of duty), the prospective duration of the amended tour of duty was 29 days.

This member would not qualify for BAH and would continue to receive BAH-RC because the prospective remaining duty period is not 31 or more days.

To process this amendment, in Direct Access, the user would enter the new end date in the Travel Tab and change the estimated date on the Seq Nbr 98 and 99 rows of the Reserve Orders.

BAH and Extensions - Example 2:

In this example, a Reserve member is ordered to 30 days ADOS, and on day 14 has their duty period increased by 15 days in addition to the initial 30 days for a total period of 45 days. The prospective remaining duty period would be 31 days and effective the date of the amendment, the member's BAH entitlement would be locality-based (vice BAH-RC) using the Place Entered Active Duty (PLEAD) as the locality for the amount.

To process this amendment in Direct Access, the user must end the current orders on the 13th day (the day prior to the day the amendment was authorized), and issue a new order for the remaining 31 days.

Verifying Prior Active Duty

Introduction This section provides the procedure for estimating the number of years of total combined Active Duty a reserve member has completed.

Discussion Per reference (a), Reservists shall not perform any type of Active Duty (except ADT-AT) if it will result in the member accumulating 16 years or more of combined active service, unless authorized. Reservists shall not perform any type of Active Duty (except ADT-AT) if it will result in the member accumulating 18 years or more but less than 20 years of combined active service, unless authorized.

The Personnel Service Center (PSC) is the approval authority for the waiver requests. Procedures for submitting waiver requests are available online at <http://www.uscg.mil/RPM/RPM1/1618REQUEST.ASP>.

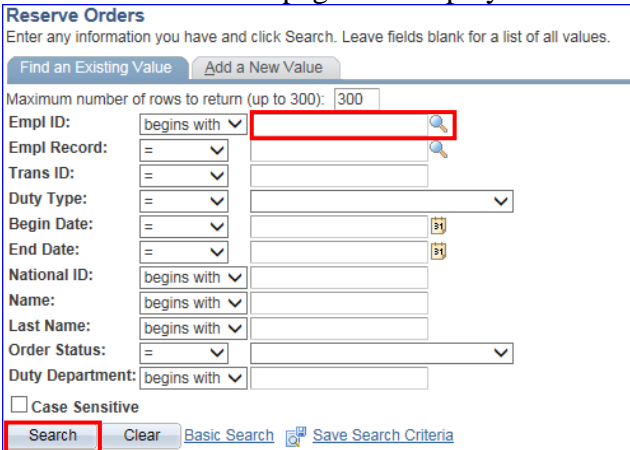

Procedure Years of combined active service are calculated in accordance with Appendix (c) of reference (c), by combining all prior Active Duty days, including prior service in an Active component, ADT and ADOT. Affiliation Points and points earned by performing Inactive Duty or by completion of correspondence courses are not used when calculating combined active service.

From the **Reserve Administration** pagelet, click the **Reserve Member Balance** link, to access the member's points statement. Add up all previous Active Duty points including any recent Active Duty and the points for the number of days (1 point per day) of the proposed new Active Duty period.

If the total is equal to or more than 5840 (16 years) the member shall not perform any type of Active Duty except ADT-AT without prior approval from Commander (CG PSC-RPM). If the total is equal to or more than 6570 (18 years) the member shall not perform any type of Active Duty except ADT-AT without prior approval from Commander (PSC-RPM).
